

Record of Communication

13/8/14

Telephone call to Marie Wynan (adjoining landowner / Wombat Protection Society)

[REDACTED]

Regarding: Harvesting in Cpts 2301, 2311 & 2321.

I called to let her know that we have reviewed the location of EEC, wetlands and rocky outcrops and have determined that not harvesting the area has negligible impact on timber volume, therefore we will not be harvesting the area around dump F adjoining her property.
